

Special Operations Group Australia (SOGA) & H3

an international, versatile, and mission capable firm

Security • Intelligence • Defense • Products • Training • Ammunition

**-13 DAY PROGRAM -
5 DAYS PSD/CPP Course
5 DAYS CQB/SHIP INTERDICTION
Includes Tactical Pistol/Rifle/Watercraft Operations (Live Fire)
USA/CALIFORNIA
20th June to 1ST July 2011**

This Program will cover the complete range of CPP/PSD Executive Protection Operations and preparation for ramp up programs for contract work in Afghanistan/ Mexico and Portugal. H3 and SOGA are negotiating contracts for immediate PSD deployments for trained and experienced Operatives. The courses cover Ship Interdiction, Live Fire, CQB, Tactical Pistol and Rifle, and subjects from the basic principles to advanced techniques. These programs are not open to everyone and only a select few will be chosen.

Course program consists of classroom lectures with the majority of the program consisting of hands on practical field exercises. The training days will consist of eight to ten hours, with some operations going for twenty-four hours. Please note that the training will often continue on into the evening/night. The course content will include and is not limited to the following: Live assignment (a real job/client.) and assessments (during the course and follow-up due after the course). There will be two (2) training blocks of five (5) days each with a weekend for sight seeing at Disneyland and a visit to Camp Pendleton and Military Units/Police Departments. Please see all other details regarding training program.

Special Operations Group Australia (SOGA)

Recently some graduates of the SOGA CPP 2010 Course received live work assignments (part time paid work) for Executive Protection and Investigations work within Australia and Asia.

Our previous AUS attendees all received the best training from the US Marshal's and the DEA/MARINES and LA SWAT. (Instructors are all SF/LE Community) This program will be even better.

Subjects and Units covered include:

- · Advance Surveys—preparation and planning
- · Ship Interdiction – watercraft- Hosted by US COAST GUARD/H3 GROUP
- · Case Studies
- · Command post procedures
- · Contemporaneous Notes and Legal Accountability
- · Counter Terrorism familiarisation
- · Defensive skills and tactics
- · Field craft and practical scenarios (Safehouse/Stronghold)
- · Final Training Exercise (FTX)
- · High and Low Threat Scenarios
- · Introduction to threat assessment, risk analysis and surveys

Special Operations Group Australia (SOGA)

Special Operations Group Australia (SOGA)

Special Operations Group Australia Capabilities Statement

Our organisation is based in Canberra, Australian Capital Territory with associates throughout Australia and the United States of America. It is the first of its kind in Australia and equal to the very high standards of similar agencies overseas.

Our first priority in business is to provide a multiform protection service and/or education for clientele's security and intelligence teams. Additionally, we offer a variety of protective development programs for individuals and corporate groups. Special Operations Group Australia is dedicated to maintaining its reputation for providing advanced training to personnel in all facets of law enforcement and protective services operations.

Our innovative approach far exceeds required standards in training and selection of manpower. Professionalism and high regard for customer service sets Special Operations Group Australia apart. When we design a training program or dedicate a protection team for service, we never forget that lives may depend upon it. With a dynamic approach, our training is based and structured on educating the individual to handle any situation from planning to debriefing.

Special Operations Group Australia (SOGA)

The courses are unique and in a distinct class of their own and cannot be compared to others. We would like to invite clients and students to invest in their safety and career future by attending our training programs.

These courses are highly recommended to those responsible for providing protective custody and transportation of executives. The curriculum of each course may be negotiated to suit the student's needs and course duration will vary according to the operational requirements. All courses are customized and facilitated within the current regulatory context of Australia and International Law, including lawful use of force requirements, with the view to providing ramp-up development for overseas deployment and operations.

Special Operations Group Australia (SOGA)

H3 SECURITY & PROTECTIVE SERVICES DIVISION

H3 Security Division is a multi-functional, global response division: **A comprehensive group of professionals & military specialists in the business of security, protection, intelligence, investigations, and defense.** The need is great, in today's current events, for continuous hands-on security & technological countermeasures; in the private sector, law enforcement and military.

By design, this division functions to confront the security challenges faced by governments and private entities. **The client's requirements, mission and needs are understood and appreciated by H3 Security; from securing infrastructures, VIP Protection, anti-piracy, civil affairs operations, surveillance, encrypted communications, gear & equipment, security, law enforcement & military training, consulting, K9 operations and NGOs.**

Our offices & representatives are located in Mexico, United States, Canada, Brazil, Australia, Venezuela, Chile, Taiwan, Spain, Germany, England, Chile, Argentina, Singapore, Poland, Italy and Kurdistan. The professionals that make up these divisions are ready to respond immediately to virtually anywhere around the globe to accomplish the client's goals and meet their needs.

Their flexible business model allows complete control of ongoing projects. With the use of high-tech support, operational experience, a high attention to detail to the client's needs, combined with rigorous quality control, this division can approach each challenge with a focused analysis of the mission. They provide practical solutions that are economical, effective and timely.

H3 Security Division has access to over 2200 Tier1 - Tier3 operators from around the world (who can be called into service in time frames ranges from 24 hours to 2 weeks) to respond to the client's needs and mission.

Whatever the client's immediate requirements may be, the security division can rapidly deploy advance team(s) to secure & stabilize the situation. Once on-scene, they can assess the client's needs and develop a positive and beneficial strategy, all the while expanding security, securing routes, protecting individuals and infrastructures and establishing roots to ensure success. This can be accomplished in a corporate, military or civilian environment.

While the services offered by the security division are ever changing and adapting to the global needs of the clients, below is a basic list of what this division of H3 can provide:
